

ORDINANCE NO. 1092

14.04.170 Meters--Required.

(a) All water supplied to consumers by the city waterworks shall be metered. The city waterworks will supply, and install a standard residential meter for household use at no charge. However, a tapping fee will be charged for any new service line. This fee shall include a standard residential meter, tapping saddle with use of a corporation valve and one man hour labor. There will be an additional charge for installations of new service line meters larger than a standard residential service. Those costs will be assessed per the size of actual meter, materials and labor to complete installation. The ownership of all meters shall remain the City of Fairfield. The city waterworks shall maintain all meters in good working order and shall replace those which can no longer be efficiently repaired, or identified for replacement per the current city waterworks replacement program.

(b) In addition to the requirements concerning meters in subsection (a) of this section, effective October 9, 2012, all customers shall be required to have a touch pad read device installed and servicing their meter. During such interim period until the ordinance codified in this chapter is fully applicable to all customers, touch pad read meters shall be installed by waterworks employees, as time permits, with the following priority:

(1) Any new account shall have a touch pad read meter installed at the time of initial service commencement;

(2) Customers not presently serviced by touch pad read meter, where the meter itself is not available to the meter reader;

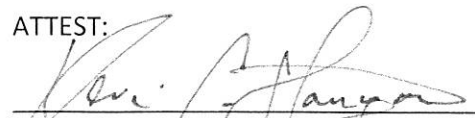

(3) Any other customers not serviced by touch pad read service registers. (Ord. 829 § 2, 1992: Ord. 822 (part), 1991).

The foregoing ordinance was adopted by the City Council of the City of Fairfield, Iowa at its regular meeting held on the 8<sup>TH</sup> day of October, AD, 2012 upon a motion by Councilperson Halley and seconded by Councilperson Boyer.

The vote on the foregoing ordinance was as follows:
