

Effective on July 1, 2021, Jefferson County will be replacing its current alert system (WENS) to (RAVE) and Smart911. To sign up, visit: alert.iowa.gov and/or download the Smart911 app to your smart device. To ensure you receive the latest weather and emergency alerts we encourage you to re-register through our new system.

To re-register at alert.iowa.gov: find Jefferson County and select the alert notification messages you wish to receive.

The Smart911 app allows you to receive push notifications across the state, including National Weather Service Warnings, and set up a user profile for you or your family that includes the option to add multiple addresses and numbers.

Are you prepared for a TORNADO?

Opt-in to weather alerts through your County opt-in page!

ALERTIOWA

POWERED BY: **Smart911**

Emergency Alert
Tornado Warning in this area until 3:30 PM. Take shelter now.

You can go to Jefferson County Emergency Management Facebook page and see the shareable information also.
